

PROMT

PROFESSIONAL MARINE TRADE PARTS

TFXTREME is a unique breakthrough design to assure unparalleled smoothness and high efficiency -with hardly any lost motion even in the longest and most complex cable layout .

Traditional cables vary by the stiffness of the core wire and how tightly its in the casing.Thu the classic trade-offs that have existed in control cable design: Stiffer core/tighterfit offers less lost motion, but is harder to move. With longer and more complex runs, cable movement becomes progressively more difficult.

TFXTREME FEATURES

- * Easy movement and minimum lost motion
- * Unique design incorporates a patent-pending splined core
- * Available as a factory replacement for Mercury, Yamaha, Honda, Tohatsu, Suzuki, Evinrude/Johnson
- * All TFXtreme cables are available in 1 ft increments
- * longer life and durability
